If You Want the Most Beautiful Car on the Block, Call Precise Detailing

I have a passion for what I do. I love cars, and anything about them. I love making a car look better than the way it did when it came from the factory. Doing this not only takes a certain amount of skill and good knowledge of products, but also patience... a lot of patience.

Detailing a car or a boat, or anything between, takes all these three, but to make a car look perfect is an art. I do this 33 step process for high end sports cars, collector cars, and luxury vehicles only. The process will usually take anywhere between 2-3 days. We use the best product line in the auto detailing world for this kind of work.

During the 2 to 3 days that I work

on your treasured vehicle, I treat it as my own. Every square inch must be observed, corrected and criticized until perfect. Once the paint is perfect, with no flaws, 3 layers of wax are applied, with various steps in between each application to make sure the paint is completely protected. Two of these layers are applied by hand using the rarest, and hardest wax in the world: white carnauba wax.

This is where detailing becomes an art

The results after the entire process are absolutely stunning. We are fully licensed, bonded, and insured, meaning you and your vehicle are completely protected.

We'll come to your home or office and give you the best auto detailing job you've ever seen or you don't pay. Call Michael today.
